To get this low price, the tour operator, quoted the price in Euros rather than “padding” the price to protect against currency fluctuations. The Airline price is also an “educated” estimate because the airlines don’t set prices or accept reservations until about 9 months before departure. Having said all of this the cost per person with double occupancy will be Euro 1695 or \$2288 based on the current exchange rate of \$1.32/1 Euro. Internet quotes for airfare this Summer would be between \$1000-1200. This makes the price including air \$3288 to \$3500. A single supplement will be Euro 267 or \$361.
